SUCCESSFULLY REDUCED MCT AT CHANGI AIRPORT SINGAPORE FOR SQ/TR

Singapore Airline's (SQ) and Scoot's (TR) trial to reduce the Minimum Connecting Time (MCT) at Changi Airport Singapore from 90 to 60 minutes was a success. The shortened MCT of 60 Minutes for SQ and TR cross-sales itineraries will remain in place.

With the reduced connection time, popular destinations like Bali (DPS), Bangkok (BKK), and Koh Samui (USM) have become even more attractive to travellers, offering greater convenience and flexibility in flight options.

^{*} Available through **NDC** channels only!

SIA NDC CONTENT LAUNCHED IN NEW CONCUR TRAVEL PLATFORM

Concur has started to provide Singapore Airlines (SIA) NDC content in New Concur Travel since 21 June 2025.

What's to do:

❖ To enable booking of SIA NDC content, your travel agency's IATA (used in New Concur Travel) must be onboarded to NDC by both SIA and Sabre.

Please contact your SIA Account Manager to initiate the onboarding process and refer to the provided information for further instructions.

- ♦ In markets where corporate clients are already using New Concur Travel, SIA NDC content will be accessible if the "Enable GDS NDC Content" setting is activated on the Company Travel Configuration page.
- ❖ Partners are advised to validate their access to SIA's NDC content to confirm that the end-to-end flow is functioning correctly.

Important:

❖ Ensure that all SIA NDC bookings for SIA corporate accounts include the SIA Corporate ID for revenue tracking purposes, which can be added through NDC.

For more information, you may refer to Concur's release notes on SIA NDC <u>here</u> and Concur's Travel Services Help page <u>here</u>.

Best regards, Your Singapore Airlines Sales Team
